

# Fuelfix & Tanks2Go T1 Self-Bunded Tank

The Fuelfix & Tanks2Go T1 is a compact, durable and versatile self-bunded tank. Perfect for generators and refuelling small fleet, the T1 allows you to quickly and easily supply fuel where and when you need it.

## Movable

The tank can easily be moved by a suitable forklift, to ensure the safe and easy handling of the tank when empty.

## Stackable

Easily stackable design when empty, reducing storage space requirements.

## Accessible

Access manway for thorough maintenance and inspection of the primary tank.

## Efficient

Lockable hatch secures the fill, dip and interstitial dip points of the tank. This tank is ideal for smaller fuel requirements such as generators or connecting to an electrical pump for product transfer.

## Environment-Friendly

Self-bunded tank constructed to AS1692 and AS1940.
